Dr. Stanislaw Burzynski
6221 Corporate Drive
Houston Texas 77036

Dear Stash,

During my trip to Europe two weeks from now, I intend to follow through on several connections that I made in your behalf at the French Embassy in Washington. I respectfully suggest that you send them, by air mail, enough information to explain the manufacture and applications of Antineoplastons.

These contacts include:

Georges A. Marcel, M.D., Ph.D., vice president of marketing affairs of Rhone-Poulenc Sante. His address is 20, avenue Raymond Aron, 92165 Antony Cedex France.

Dr. Marc Mathieu, directeur recherche et developpement, Innothera Recherche, 10, avenue Paul-Vaillant-Couturier B.P. 35 94111 Arcueil Cedex France.

Dr. Claude Charbonnier, pharmacist doctor, director of scientific and regulatory affairs, Institut Merieux, 58, avenue Leclerc, 69007 Lyon, France.

In addition, we should send your packets of material to several people in the United States:

Dr. Edward Brody, the head of licensing and acquisitions for Block Drug Company, Inc., 257 Cornelison Avenue, Jersey City, NJ 07302 at the suggestion of Gabriel Milton (their assistant corporate counsel and overseas marketing representative), whom I met in Washington.

Dr. Don Namm, Burroughs Wellcome Co., 3030 Cornwallis Road, Research Triangle Park, NC 27709, at the suggestion of Loren Miller in regulatory affairs.

Before I leave for France, I will write and call each of these gentlemen to set up an appointment. I hope that the Lynonnais spends some time in Paris, but if not I can certainly go to Lyon to see him if he shows substantial interest. My

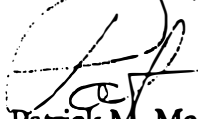

friend Misha Popov will also have a number of pharmaceutical contacts for us, which I shall explore.

I would also appreciate it if you could write me a note extending our representation agreement for another year, preferably from now till this time in 1990.

While I am aware that Rhone Poulenc has already contacted you, I gather that you wish me to follow through on my contact as though I had brought the company to your attention as per our agreement. If not, please let me know. I found Dr. Marcel most congenial and he promised me "a most constructive discussion" upon my arrival in France.

I enjoyed our visit in New York very much. It was wonderful fun, and I think your radio appearances should generate interest from many patients.

My warmest regards to you and Basha,
